IMPORTANT KIA *BLUETOOTH®* INFORMATION (WITHOUT NAVIGATION)
FOR SORENTO MODELS

Please keep for easy future reference (see Kia.com/Owners for FAQs, or reference your Owner's Manual for additional information)

PHONE PAIRING QUICK REFERENCE
Vehicle must be safely parked. Vehicles with automatic transmissions must be in "P" or Park. For manual transmissions, make sure the vehicle is in neutral and the parking brake is on. Turn off other Bluetooth® devices to pair and connect.

NOTE: Vehicle MUST be in "P" or Park.

User Action	Kia Bluetooth® System Response
Enable *Bluetooth®* on the phone - Turn *Bluetooth®* on *(Process can vary by phone)*	
On the vehicle, press the SETUP button	
Select PHONE	
Select PAIR or PAIR PHONE	Some systems may ask you to say the name of your phone. Afterwards, say "yes".
Select *Bluetooth®* "Search" on the phone: - Select "search for *Bluetooth®* devices" (or "find", "discovery", "connect", etc.) - Phone will display vehicle name - Select the vehicle name and press OK/enter on the phone	Radio will display Passkey as a 4 digit code - may take a few moments
Enter the 4 digit pairing passkey in your phone and press OK (or "send", "enter", "done",etc.) *Note: Some phones will ask you to accept the connection before proceeding*	- Radio displays "Pairing complete" *Note: This may take a few minutes and radio may play during the wait)* - Radio displays "Connection Complete"

* The names listed in the phone contact list for the transferred phone numbers are now available through the system's voice dialing function.

NOTE: During the pairing process, some phones may require you to check an option so that accepting the connection request will not be required each time.
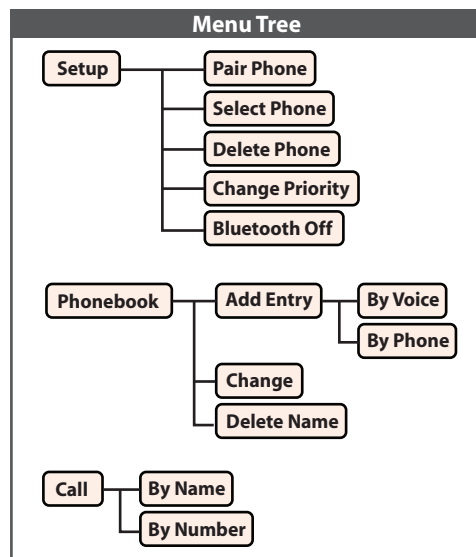

NOTE: Up to 5 phones may be paired. The first phone entered will be the priority phone (unless changed). If a pairing is lost or accidentally deleted, simply repeat the pairing procedure.

BLUETOOTH® AUDIO ADAPTATION (Driver's voice)
For users with accents, this option improves performance of voice recognition to a particular user's voice.

User Action
Press END CALL button for 10 seconds
Say *"Record Profile"*
Say *"Yes"*
Speak the words shown on the Audio System display

- By Number
Steering Wheel Controls

TALK Button
(push to place a call with minimal vocal command prompts from the system)

RECEIVE CALL Button
(push to display the phone screen with number key pad, or to answer an incoming call)

END CALL Button

HOW TO PLACE A CALL

There are two ways to place a call

User Action
Option 1: Press the "Receive Call" button (system will prompt you through call process).
Option 2: Press the "Talk button" (system will beep to indicate it is ready for call placement, will not offer call prompts)

NOTE: When using Voice Recognition, some phones reverse the names in the contact list from {*First Name, Last Name*} to {Last Name, First Name}.

NOTE: If experiencing difficulty using Voice Recognition to place a call, be sure you are using the actual *full* contact name as entered in your phone book, not a casual or nick-name (e.g., if name was entered as "Robert Smith", say "*Call Robert Smith*" not "*Call Bob Smith*").

NOTE: Phonebook transfer upload time varies by phone model and with number of phonebook entries.

NOTE: Remember to *always* wait for the beep before speaking any commands.

Always check the Owner's Manual for complete operating information
